Release Date: 02-25-2013Open Date: 04-23-2013Due Date: 01-07-2014Close Date: 01-07-2014

Purpose The purpose of this funding opportunity is to reduce health disparities through the development and translation of appropriate medical technologies. The NIH defines health disparities as differences in the incidence, prevalence, morbidity, mortality, and burden of diseases and other adverse health outcomes that exist among specific population groups. These population groups i ...

6. [147: A Mobile Application to Help Patients Take their Pill Medications as Prescribed: Improving Medication Adherence](#)

Release Date: 08-15-2012 Open Date: 08-15-2012 Due Date: 12-03-2012 Close Date: 12-03-2012

It is strongly suggested that proposals adhere to the above budget amounts and project periods. Proposals with budgets exceeding the above amounts and project periods may not be funded. Drugs don't work in patients who don't take them. — C. Everett Koop, M.D, former U.S. Surgeon General Medication adherence is described as the extent to which patients take medications as prescribed by their ...

7. [033: A Mobile Phone Application \("App"\) for Advancing Teen Pregnancy Prevention](#)

Release Date: 08-15-2012 Open Date: 08-15-2012 Due Date: 12-03-2012 Close Date: 12-03-2012

Background: The teen birth rate in the US remains high, particularly among racial/ethnic minorities compared with many other industrialized nations. The adverse consequences of teen pregnancy are substantial at individual, family, and community levels. A range of innovative tools and interventions is needed to foster an environment that enables teens to experience better reproductive health. In 20 ...

8. [021: Aerosolized Delivery of Anti-Tubercular Drugs](#)

Release Date: 08-15-2012 Open Date: 08-15-2012 Due Date: 12-03-2012 Close Date: 12-03-2012

Background Many currently existing drugs for the treatment of TB, especially MDR TB are moderately potent, show restrictions with absorption or oral bioavailability, and have toxicity profiles that make patient management difficult. Aerosolized delivery offers the potential to bypass these barriers to drug efficacy by achieving high drug concentrations in the infected pulmonary tissue with lower s ...

9. [004: Assay Development for High-Throughput Screening of Chemicals of Toxicological Concern](#)

Release Date: 08-15-2012 Open Date: 08-15-2012 Due Date: 12-03-2012 Close Date: 12-03-2012

Adverse human health outcomes – a.k.a., “toxicity” – caused by pharmaceutical or environmental compounds are a major cause of drug development failure and public health concern. Methods to evaluate the potential of chemical compounds to induce toxicity are based largely on animal testing, are low-throughput and expensive while giving little insight into mechanisms of toxicity, and have not ...

10. [003: Automated Instrument to Clean Microtiter Plates](#)

Release Date: 08-15-2012 Open Date: 08-15-2012 Due Date: 12-03-2012 Close Date: 12-03-2012

This initiative seeks to develop an automated piece of instrumentation that can be used to clean previously used microtiter plates, making them suitable for reuse. Given the large quantities of microtiter plates required for high throughput screening any such device developed has the potential of a viable commercial market. Currently in high throughput screening the rule of thumb is to treat every ...
